Notwithstanding, Members hereby agree MC-IF may use Member's logos on the MC-IF website.

6. MODIFICATION OF THIS POLICY TO FACILITATE PATENTABLE CONTRIBUTIONS

6.1 Circumstances requiring consideration of modification of this Policy.

If any Work Product to be released by MC-IF is in the nature of a technical specification with mandatory or normative statements that may require the Members to obtain licenses to patent claims to implement such Work Product, the Board of Directors shall consider modification of this Policy (and any other Organizational Documents) to add patent-related terms, or alternatively, not release such a Work Product without modification to remove such mandatory statements. Without such modification, no Member makes or has made any commitment to license any patents under this Policy or the Bylaws.

6.2 Triggers and time constraints on Policy modification

- (a) Any Member with knowledge of the activities of a particular Work Group, who believes in good faith that the activity of that Work Group is changing to include creation of a Work Product that may require a Member to obtain a license to patent claims or patentable subject matter, shall have the right to notify the Board to trigger a Board decision on whether to create and adopt patent-related modifications to this Policy. The Board shall consider whether it is necessary to adopt such modifications to this Policy and shall have 60 days in which to make a decision from the date written notice is provided by such notifying Member. Work on the applicable activity of the Work Group shall cease for that 60 day period, unless a decision of the Board that a modification of Policy has been adopted or is not needed is made and communicated earlier to the Work Group and notifying Member. If the Board determines by Supermajority that patent-related provisions are required in this Policy, it shall seek to draft and adopt them (by additional Supermajority vote) as quickly as possible, and the applicable activities of the relevant Work Group shall remain suspended until such modifications are adopted.
- (b) Should the Board determine that a Work Group Charter (either during formation of the Work Group or on consideration of a request to modify a Work Group Charter) may include the creation of a Work Product that may require a license to patents or

- patentable subject matter, it shall have 60 days from that determination to create and adopt, by Supermajority vote, modifications to this Policy to cover patent-related issues.
- (c) If any Work Product is created that requires patentable technology to implement, in the good faith opinion of a Member, prior to adoption of Policy modifications related to patents of the Members, and MC-IF wishes to contribute that Work Product to any standards body having a pre-existing IPR policy that may obligate Contributors to license their patents under any terms, that Member shall have the option of triggering a Board decision to adopt modifications of this Policy. If the Board determines by Supermajority that patent-related provisions are required in this Policy, it shall seek to draft and adopt them (by additional Supermajority vote) as quickly as possible. Any Board decision to modify this Policy should also consider provisions that include criteria for selecting a standards body with an IPR policy acceptable to the Members of the MC-IF and no contribution of such Work Product shall be made prior to adoption of modifications of this Policy.
 - (d) Any Member Participant may request MC-IF to withdraw any or all of its Contributions and request the removal from any Work Product the subject matter of which if implemented may infringe such Member's patents, within 60 days of notification of adoption of a Policy modification. If such request is made, the Member's or its Affiliate's patents will not be subject to the Policy modification.

7. SURVIVAL OF OBLIGATIONS

APPENDIX B – INTERIM ANTITRUST GUIDELINES

MEDIA CODING INDUSTRY FORUM, INC. INTERIM ANTITRUST GUIDELINES

Note, Members in the formation of the Media Coding Industry Forum, Inc. must review and adhere to these draft guidelines.

Capitalized terms not defined in these Guidelines have the meaning assigned to them in the Bylaws.

BACKGROUND

Collaborative industry consensus standards, such as the MPEG Standards, play an important role in today's global economy. Antitrust agencies have long understood their many procompetitive and other public good attributes including: promoting efficient resource allocation and production by facilitating interoperability among complementary products; reducing barriers to market entry; spurring innovation in the marketplace to the benefit of consumers (dynamic innovation), enhancing consumer welfare, reducing production costs, and protecting public health and safety.

The Media Coding Industry Forum, Inc. ("MC-IF") foundational goal, as expressed in Section 2 of the By-Laws, is to further the adoption of MPEG Standards. It aims to do this by e.g. increasing interoperability, facilitating entry into the multimedia product market, creating a robust competitive ecosystem for multimedia products and complementary products around these standards, and hence providing consumers with a better multimedia experience.

MC-IF intends to conduct its affairs in compliance with the antitrust laws of the United States, European Union, the antitrust laws of the states within the United States, the antitrust/competition laws of other countries, and all jurisdictions as applicable, that may govern the activities of MC-IF (generally, "Antitrust Laws"). The Antitrust Laws are intended to preserve and promote free, fair and open competition. This competition benefits consumers and companies that are innovative and efficient.

Certain types of activities may be deemed to be anti-competitive and a violation of the Antitrust Laws which can have serious consequences for those who commit such violations. In order to avoid any such violations of the Antitrust Laws, MC-IF and each Member or other participant (for purposes of this Antitrust Guideline, a "Member") agree to abide by the following guidelines when participating in connection with activities of MC-IF. MC-IF fully embraces the purpose and intent of the Antitrust Laws and it will be and remain in compliance with both the letter and spirit of such laws.

Prior to any and all meetings of MC-IF, Work Groups, or other subgroups thereof, the Members and any other attendees in that meeting shall be reminded of their obligation to comply with these guidelines.

GUIDELINES

1. Neither MC-IF nor its Work Groups, committees and activities shall be used for the purpose of bringing about, attempting to bring about or inviting any understanding or agreement, written or oral, formal or informal, express or implied, between and among competitors with regard to their prices, terms or conditions of sale, volume of production, sales territories, customers, credit terms, marketing practices, or similar subjects that may affect competition. Consequently, there should be no discussion of non-public pricing information in connection with any MC-IF activity, including the prices at which goods, services, or technology will be bought or sold, or intellectual property licensed.
2. In connection with participation in MC-IF, there shall be no discussion, communication, agreement or disclosure among Members that are actual or potential competitors, regarding their prices, the price of their vendors, discounts or terms or conditions of sale or licensing of products, services or technologies, pricing methods, profits, profit margins or cost data, production plans, market shares, sales territories or markets, allocation of territories or customers, or any limitation on the timing, cost or volume of their research, production or sales or on the use of any technologies or other competitively sensitive information. Members may generally discuss publicly available information but shall not seek or enter into any agreement regarding products, services or intellectual property that may impact competition.
3. MC-IF may, consistent with the Antitrust Laws and these Antitrust Guidelines provide a forum for, and encourage, the discussion of non-price issues related to the licensing of intellectual property rights relevant to the deployment and use of the Standards, in the furtherance of the Purpose. In order to avoid antitrust concerns, such discussions should neither seek to set or discuss licensing terms or pricing nor disclose the terms or pricing of existing licenses or details of specific negotiations of such licenses nor seek to impose restrictions on Members' licensing activities.
4. MC-IF and Members, in connection with their participation in MC-IF, shall not attempt to prevent any person from gaining access to any market or customer for goods, services or technologies, or attempt to prevent any person from obtaining a supply of goods or services or otherwise purchasing goods, services, or technologies, or licenses thereto freely in the market. (This paragraph is not intended to preclude MC-IF or a Member from independently unilaterally disclosing and asserting its intellectual property rights.)

5. The qualifications for participation in MC-IF are set forth in the Organizational Documents of MC-IF. No applicant for participation, who otherwise meets the qualifications set forth therein, shall be rejected.
6. Each Member in MC-IF agrees that it shall exercise its own independent business judgment in pricing its services or products, dealing with its customers and suppliers, and choosing the markets in which it will compete, and whether and under what terms to offer to license or to accept a license to intellectual property.
7. To the extent that MC-IF develops, administers or approves specifications, test procedures, or certification programs, a Member's decision to accept or comply with or participate therein shall be voluntary on the part of the Member and such decision shall be made unilaterally, and a Member shall in no way be compelled or coerced by MC-IF. This guideline shall not, however, prevent MC-IF from adopting testing and certification programs and/or mandatory product compliance and robustness regimes for companies choosing to implement the specifications as well as logo and trademark usage requirements tied to adherence with MC-IF's specifications, test procedures or certifications programs.
8. Work Products which may be developed, administered, approved, or adopted by MC-IF, shall be based upon appropriate technical, business and consumer considerations, and shall not be based upon any effort or purpose to reduce or eliminate competition in the sale, supply and furnishing of products and services.
9. MC-IF may condition use of its trademark(s), and other intellectual property, on compliance with terms and conditions developed to regulate the use of and to protect such mark, and otherwise to maintain and enforce a compliance certification program in accordance with agreed terms and conditions and in conformity with the antitrust laws.
10. During the course of the activities of or sponsored by MC-IF, Members should refrain from disclosing competitively-sensitive information to any other Member that is not reasonably related the legitimate purposes of such activities.
11. MC-IF and its Members, in connection with their participation in MC-IF, shall not enter into any agreement or understanding among themselves to refrain, or to encourage others to refrain, from using any technical standard or from purchasing any raw materials, product, equipment, services or other supplies from any supplier or vendor or from dealing with any supplier or vendor, or from licensing its intellectual property rights to any particular entity.
12. Nothing in MC-IF's Organizational Documents shall be construed as restricting the right of any Member of MC-IF to independently design, develop, acquire, manufacture, market, service or otherwise deal in, directly or indirectly, competitive products or services independent of any items developed or delivered by Members or MC-IF.

13. Joint research and development by two or more of MC-IF Members and/or representatives thereof shall be organized and conducted in a manner consistent with antitrust and other legal requirements, and in particular shall exclude the following activities:

- a. the exchange of information among competitors relating to costs, sales, profitability, prices, marketing or distribution of any product, process, or service that is not reasonably required to conduct the appropriate research and development activities;
- b. any agreement or any other conduct restricting, requiring, or otherwise involving the production or marketing by any Member of MC-IF of any product, process or service, other than the production or marketing of proprietary information developed through such joint research and development, such as patents and trade secrets; and
- c. any agreement or any other conduct restricting or requiring the sale, licensing or sharing of inventions or developments not developed through such joint research and development, or restricting or requiring participation by any Member of MC-IF in other research and development activities, that is not reasonably required to prevent misappropriation of proprietary information contributed by any Member of MC-IF, or representative thereof, or of the results of such joint research and development.

14. Conflict of Interest.

- a. Individuals participating in MC-IF, including all Work Groups, Board of Director meetings or other events or meetings must disclose (1) their current employer and any current consulting relationship for which the individual is receiving, either directly or indirectly (e.g. through an entity in which the person holds a controlling interest), any compensation or reimbursement, financial or otherwise, from a Member or organization whose activity is relevant to MC-IF and (2) decision-making role/responsibility in other organizations relevant to MC-IF (e.g., a decision-making power at a patent licensing administrator). For Work Groups, a disclosure should be made to the Work Group Chair, for all other instances disclosure should be made to the President or Executive Director. Such notices shall be published within MC-IF to the Members.
- b. Individuals participating in MC-IF, including all Work Groups, Board of Directors meetings, or other events or meetings must disclose conflicts with other Members, or any third party, that might reasonably create a conflict of interest with the individual's role, or the Member's role, at MC-IF. These disclosures should be kept up-to-date as the individual's conflicts and MC-IF membership evolve. For Work Groups, a disclosure should be made to the Work Group Chair, for all other instances disclosure should be made to the President or

Executive Director. Such notices shall be published within MC-IF to the Members.

- c. The following are some non-exhaustive scenarios where disclosure is generally *not* necessary:
 - 1) Buyer-Supplier relationships
 - 2) patent cross-license relationships or other commercial patent license arrangements, including patent pools
 - 3) Membership in a member organization or other industry forum.
15. Disclosure of Affiliation. At each Work Group meeting, Board of Directors meeting, or other MC-IF activities each Member shall disclose his or her affiliation(s), if any, other than the Member's employer. A Member is deemed "affiliated" with any individual or entity that has been, or will be, financially or materially supporting the Member's participation in an MC-IF activity. This includes, but is not limited to, any individual or entity that has or will have, either directly or indirectly, requested, paid for, or otherwise sponsored his or her participation. Failure to disclose such affiliation(s) may result in complete or partial loss of rights to participate in MC-IF activities. An individual is not excused from compliance with this policy by reason of any claim of a conflicting obligation (whether contractual or otherwise) that prohibits disclosure of affiliation(s). A Member who believes that another Member's disclosure is materially incomplete or incorrect should report that fact to the Work Group Chair, the Executive Director, or the President. Affiliations of the type identified in section 14 (c) above do not need to be disclosed.
16. MC-IF membership should be available on reasonable terms to all entities meeting the MC-IF's membership requirements.
17. Compliance with the technologies and Work Product promoted by MC-IF should be voluntary. Members should not discuss or exchange information that would tend to restrict any member or non-member from establishing or deploying a different technology, or enter into agreements that prohibit or restrict any member from establishing or deploying any other technologies. Members of MC-IF should not be required to adopt any technology endorsed by MC-IF. Nor should any efforts be undertaken that are intended to prevent the manufacture, sale, or supply of any products, services, or technologies not conforming to an MPEG standard or any technologies that MC-IF may promote or adopt.
18. MC-IF and each Member, in connection with the activities of MC-IF, shall comply in all respects with the Antitrust Laws. In case of any doubt, members shall seek the advice of an antitrust counsel. Furthermore, MC-IF will offer an antitrust-awareness training to its members once a year.
19. These Guidelines are not intended to create duties or obligations beyond what the Antitrust Laws actually require. In the event of inconsistency

between these Guidelines and the requirements under Antitrust Laws, the Antitrust Laws shall control.

20. These Guidelines shall be promulgated to all Members in MC-IF. All Members shall abide by these Guidelines.

Duly adopted by the Board of Directors of Media Coding Industry Forum, Inc. on September 13, 2018.
